

Specialty Adhesives and Coatings

TECHNICAL DATA SHEET

PRODUCT DESIGNATION: DRB 157 Water Based Acrylic Adhesive

GENERAL DESCRIPTION: DRB 157 is a water-based, Acrylic adhesive that has been formulated to be coated / laminated onto paper, foil, foam, polyethylene, Tyvek® and linerboard. DRB series products offer a range of pressure sensitive/lamination products that are suitable for permanent and removable applications. They are ideally suited for use on film, paper, foil, industrial packaging, bags, as well as confectionary, bakery and snack food packaging. They are formulated to provide adhesion to difficult-to-bond surfaces and can meet the most demanding product requirements. DRB 157 can be used on a variety of substrates with most success for bonding paper/linerboard and plastic films.

TYPICAL PHYSICAL AND APPLICATION DATA

Viscosity @ 77°F (25°C):.....2000 - 2500 cps.
Weight/Gallon @ 77°F (25°C):.....8.7 lbs/gallon
pH:.....7.5-8.5
% Solids:.....51-53%

COATING PROCEDURE: DRB – 157 can be applied using gravure, air knife, roll coater, Meyer rods, and many other types of coating equipment.
